ICF TECHNOLOGY INCORPORATED

MEMORANDUM

DATE: March 2, 1993
TO: Bob Benedetti
FROM: Gaynor Dawson *Gaynor*
SUBJECT: AUTHORIZATION FOR PROPOSED SPECIAL STUDY

Attached please find a workplan for modeling support for the OU2 RI/FS. This plan was developed to provide values for the exposure assessment at OU2 as a contingency in case currently planned modeling efforts are not successful. The work is designed to use available data and generate conservative validation numbers to help focus the modeling. This work is within the scope and budget of our current support contract and can be authorized as a topical report or a workplan review.
